

IEEE Asian Solid-State Circuits Conference 2011

Ramada Plaza Hotel, Jeju, Korea / November 14-16, 2011

Guideline for On-line Payment using Overseas Cards (non-Korea issued)

General Information for 3D Secure

• Why we should use 3D Secure for on-line payment!!

As the crime using stolen credit card increases internationally, the Korean government rigorously enforces secure on-line payment method. Thus, it is mandatory to adopt the '3D Secure system' service for on-line payment by credit card in Korea.

This service helps *preventing* the unauthorized online use by confirming the identification with an additional password.

To Activate 3D Secure Service

- 1. Your credit card company should be a member of 3D Secure.
- 2. Your credit card should be registered to 3D Secure by your credit card company.
- 3. You should register your credit card to VISA 3D Secure after step 2.

• For more information on 3D Secure, please refer to the URL below.

Visa cards : <u>http://usa.visa.com/personal/security/visa security program/vbv/verified by visa faq.html#anchor 1</u>

How to Proceed On-line Payment at A-SSCC 2011

[Notice]

Microsoft Internet Explorer version 6.0 or later must be installed on your computer to proceed on-line payment, though it does not need to be your default browser.

1. After submitting on-line registration, please click "Go to the Electronic Payment service" button.

2. Then you are asked to install INIPay Plugin as shown ActiveX. At the click of right button, you can install INIPay Plugin.
